

## ■ SAFE-SERVICE

Safe-Service is the PC software to administrate safe deposit boxes in a comfort able way. The box rental is performed in logic steps and allows the print out of rental contracts and invoices. Even the administration of key deposit s, statistic calculations and all other necessities of a convenient administration software are considered. Safe-Service can be used as st and allone system or in connection with the electronic safe deposit box control unit as remote control and monitor unit.

Administration software „Safe-Service“
